LE VIET TAN PHAT

Vietnamese/English/Japanese - Working as an Investment Consultant Associate in Ho Chi Minh City, advising Japanese and foreign investors on market entry, expansion, and cross-border M&A in Vietnam.

Ho Chi Minh City, Vietnam

Summary

After 7 years of studying and working in Japan, I returned to Vietnam to support foreign investors, particularly those from Japan, in entering and expanding in the Vietnamese market. I am currently an Investment Consultant Associate at a consulting firm in Ho Chi Minh City.

I advise Japanese and other foreign investors on market entry and expansion in Vietnam, covering corporate structuring, licensing, and operational setup. I have also been involved in M&A-related engagements and am keen to further develop my expertise in cross-border M&A.

With a strong understanding of both Japanese and Vietnamese business cultures, I aim to be a trusted bridge for sustainable investment between the two markets.
